

# The Risk, Need, Responsivity Simulation Tool

Are you a Technical Assistance provider? Are you a web-savvy go-getter who is interested in working with jurisdictions to increase their use of EBPs?! Then we have just the thing for you!!

The Center for Advancing Correctional Excellence (ACE!) at George Mason University is currently seeking individuals interested in becoming technical assistance providers for the RNR Simulation Tool.

Please apply by December 20, 2013 by contacting the RNR staff at [rnrtool@gmu.edu](mailto:rnrtool@gmu.edu)

## Technical Assistance Training January 13—14, 2014 BJA: 2010-DB-BX-K07

The RNR Simulation Tool is designed to assist agencies in determining what forms of programming will be most effective in reducing recidivism and improving outcomes within their population. The tool is also designed to guide resource allocation and help jurisdictions identify service provision gaps. It is made up of three linkable portals that provide decision-support at the offender, program, and system level: Assess an Individual; RNR Program Tool for Adults; and Assess Jurisdiction's Capacity. Used together, these tools can have a significant impact on recidivism at a system level.

For more information regarding the RNR Simulation Tool, visit our website or contact [rnrtool@gmu.edu](mailto:rnrtool@gmu.edu)
